

CONSISTENT CONDUCTIVITY + HIGH FLOW

LEADING BIOTECH MANUFACTURER

CONDUCTIVE PIPETTE TIPS

AVIENT SOLUTION

Trilliant™ HC Conductive Formulation

WHY AVIENT?

- Offered consistent electrical conductivity to achieve repeatable part performance and minimize failures from inconsistent conductivity
- Provided high flow grade with easy processing to improve efficiency and cost effectiveness
- Achieved high stiffness and warp resistance, minimizing the rejection rate

LEARN MORE

KEY REQUIREMENTS

- Accuracy of liquid measurements
- Hydrophobic properties to minimize fluid retention
- Concentric dimensional stability and warp resistance
- High flow properties for multi-cavity molds
