

**CHEMICAL RESISTANCE + BONDING**

# LEADING EV MANUFACTURER

## CHARGING GUN GRIP

### AVIENT SOLUTION

Versaflex™ TPE Formulation

### WHY AVIENT?

- Provided a rubbery touch feel, chemical resistance (including to ethanediol), and better appearance than the incumbent TPV solution
- Eliminated a secondary process through two-shot injection molding with good adhesion to PC, ABS, PC/ABS, and copolyester handles
- Offered quick technical support to accelerate the product development

### LEARN MORE

### KEY REQUIREMENTS

- Good abrasion resistance
- Excellent chemical resistance
- Nice surface finish
- Good bonding with flame retardant PC/ABS
